

## List of Positions & Requirements:

### PRODUCTION OPERATIONS

- 1. Senior Structural Engineer (Offshore Structure/Offshore Foundation)**
  - Minimum 8 years of experience in onshore/offshore/shipbuilding projects.
  - Possess Bachelor of Engineering in Civil/Structural or equivalent.
  - Must be conversant with engineering standards & codes such as API/AWS/AIS/IMO-MODU/ABS-MODU or Vessels' rules/ SOLAS etc.
  
- 2. Structural Engineer (Offshore Structure/Offshore Foundation)**
  - Minimum 8 years of experience with advance knowledge in civil or structural engineering, obtainable usually through a combination of experience.
  - Possess Bachelor of Science or Degree in Civil Engineering or equivalent.
  - Well verse in performing structural design and analysis calculations using governing codes and standards.
  
- 3. Senior Process Engineer (Offshore Oil Processing/Offshore Gas Processing)**
  - Minimum 7 years experience in related field, preferably in offshore Oil and Gas project.
  - Possess Bachelor of Science or Degree in Chemical Engineering or equivalent.
  - Experience in petroleum refining, chemical or industrial process equipment design would be an advantage.
  - Competent to develop process simulation and calculations.
  
- 4. Process Engineer (Offshore Oil Processing/Offshore Gas Processing)**
  - Minimum 5 years experience in related field, preferably in offshore Oil and Gas project.
  - Possess Bachelor of Science or Degree in Chemical Engineering or equivalent.
  - Experience in petroleum refining, chemical or industrial process equipment design would be an advantage.
  
- 5. Senior Mechanical Engineer**
  - Minimum 10 years experience in related field, preferably in offshore Oil and Gas project.
  - Possess Degree in Mechanical Engineering or equivalent.
  
- 6. Mechanical Engineer**
  - Minimum 5 years experience in related field, preferably in offshore Oil and Gas project.
  - Possess Degree in Mechanical Engineering or equivalent.
  
- 7. Senior Electrical Engineering**
  - Minimum 10 years experience in Offshore Oil and Gas project.
  - Possess Bachelor Degree in Electrical
  
- 8. Electrical Engineer**
  - Minimum 5 years experience in Offshore Oil and Gas project.
  - Possess Bachelor Degree in Electrical Engineering.

**9. Senior Instrument Engineer**

- Minimum 10 years experience in related field, preferably in offshore Oil and Gas project.
- Proven track record in instrumentation engineering.
- Chartered Engineer (IChemE, IEAust or equivalent) or Member of Appropriate Engineering Institution would be an advantage.

**10. Instrument Engineer**

- Minimum 5 years experience in related field, preferably in offshore Oil and Gas project.
- Project track record in instrumentation engineering
- Chartered Engineer (IChemE, IEAust or equivalent) or Member of Appropriate Engineering Institution would be an advantage.

**11. Operations Engineer**

- Minimum 10 years experience in an engineering role for a production company.
- Possess Bachelor of Science or Master of Science in petroleum, chemical or mechanical engineering.
- Experience with horizontal development/drilling, multi-stage fracturing, facilities, completions/work over.

**12. Instrument Maintenance Engineer**

- Minimum 8 years experience in same function of related industry, preferably in Oil and Gas project.
- Possess Bachelor's Degree/Diploma in Control Engineering or related fields.
- Engineering expertise in Instrumentation and broad knowledge of other disciplines.

**13. Electrical Maintenance Engineer**

- Minimum 5 years in related field, preferably in Oil and Gas project.
- Possess Bachelor Degree/Diploma in Engineering (Electrical/Electronic) or equivalent.
- Excellent knowledge in maintenance of electrical parts.

**14. Mechanical Maintenance Engineer**

- Minimum 5 years experience in related field, preferably in offshore Oil and Gas project.
- Possess Bachelor Degree in Mechanical Engineering or equivalent
- Excellent knowledge in maintenance of machine, spare part, etc.

**15. Rotating Engineer**

- Minimum 5 years experience in related field preferably with project equipment engineering duties.
- Possess Bachelor Degree in Mechanical Engineering or equivalent.

**16. Offshore Technician**

- Minimum 3 years experience in related preferably in Oil and Gas project.
- Able to perform general maintenance and repair activities (hands on) on all electrical mechanical / instrumental equipment.
